## MORE COMPLICATIONS.

The Original Package Problem in South  
Dakota.

CHAMBERLAIN, S. D., July 19.—Judge Hancey of this district, has sustained his temporary injunction against the original package houses in this city. The grounds given for the decision are that the enabling act admitting South Dakota to statehood authorized the enactment of the prohibition clause in the state constitution; such enabling act having been passed by congress subsequently to the passage of the interstate commerce law, therefore the prohibition law has received the sanction of congress and the supreme court decision does not, therefore, apply to South Dakota.

## RE-OPENING A THOROUGHFARE.

In order to guard against results utterly subversive to health, it is absolutely essential that the grand thoroughfare or avenue of the system, the bowels, should be reopened as speedily as possible when they become obstructed. If they are not, the bile is misdirected into the blood; the liver becomes torpid; visceral bilious matter gets into the stomach, and produces indigestion, headaches, constipation, and other symptoms are produced, which a prolongation of the existing cause only tends to aggravate. The system of the bowels, therefore, is the most important of the system, and the most useful agent in overcoming constipation of the bowels, and promoting a regular habit of body. It is infinitely superior to the drastic cathartics frequently used for the purpose, since it does not, like them, act violently, but produces a natural, painless effect, which does not irritate the tone of the evacuator organs, which it invigorates instead of weakening. The stomach and liver, also, indeed the entire system, is strengthened and regulated by it.

## MISSOURI'S MILITARY CAMP.

EXCELSIOR SPRINGS, Mo., July 19.—To-day a detachment of the United States army from Fort Leavenworth marched into Excelsior Springs and encamped on the heights above the hotel preparatory to taking part with the Missouri national guard in the camp of instruction that will last until next week. Stretch, and company H, Thirtieth infantry, under Captain James Fournelle. The detachment marched all the way from Fort Leavenworth, and the weather here was very hot. The weather here is delightfully cool. The militia will not be here in full force till Monday, but the detachment of the captain John J. Granfield, quartermaster, and Captain S. E. Kelsey, engineer of the Third regiment, and Lieutenant Deutch, of the Carriage light guard, are on the ground and have pitched camp for all the troops.

"Michigan Central—1:20."  
"Why, the bus for that train left some time ago. The porter called it out while you were talking."

"Give me a hunk," called the boy.

"It may prevent sunstroke," continued the boy.  
"For ten cents," replied the driver.

"Then I'll ride," said the boy, and the driver shook his head.  
"It may save my life," said the boy.  
"For five cents," grimly replied the driver.

"That's a clear monopoly, and here goes to down it," said the boy, and he hit the driver in the back with a stone and escaped.

## THE OLD COACH.

## "There goes his coach!"

## "The coach!"

"Oh, my, what a lack to world be—"

"Well, why not tonight, eh, boys? Now's our time. What do you say?"

A group of half a dozen boys stood in the shadow of one of the white pillars, looking over their shoulders at the old-fashioned carriage, which was being driven away from the town, and came around to the rear of one of the professors' residences—that of Professor W.

When the vehicle had disappeared behind the row the six young students gathered in pairs to continue their conference in the seclusion of one of those curious old serpentine brick walls which are counted among the sights of the place.

For the scene had taken place at the University of Virginia, at Charlottesville, an institution with a history.

A few miles down the Rappahannock river, under the shadow of the Little Mountain, stood the old-fashioned homestead where Thomas Jefferson was born 147 years ago.

The future of the Declaration of Independence and third president of the United States was, from all accounts, an exceedingly lively and spirited youth. His student days were spent at Williamsburg, the colonial capital of Virginia, down in the peninsula or southeastern portion of the state, midway between the York and James rivers. Here was the seat of the renowned William and Mary college, the most ancient institution of learning in this country after Harvard.

"Tom" Jefferson figured prominently in many college episodes, and in letters of his are still preserved, he habitually calls the venerable town "Devilsburg."

When Jefferson became a man he realized at least one of the dreams of his youth by buying the magnificent lands upon and around Monticello (Italian for Little Mountain), and building upon the summit the classic and stately mansion that was his home during the remainder of his long and illustrious life.

In the same elegant and substantial style of architecture as his own mansion he drew the plans for what he labeled should be the noblest university buildings on this continent. The construction of these buildings, on the opposite edge of Charlottesville from Monticello, Jefferson personally superintended, and watched eagerly from the porch of his home on the mountain, four or five miles away. He was in every sense of the word the "Father of the University of Virginia"—a title beloved by him and embodied in the simple epitaph prepared by him for his tomb, which even omits mention of the fact that he was president of the United States of America.

Considering how much of "Tom" Jefferson's own buoyant personality went into the organization of the university, it is not surprising that traditions of mirth and frolic should have been handed down from one generation to another, even upon this day. It has been the alma mater of many of the south's most brilliant men, including the poet, Edgar Allan Poe. Each one of these, without a doubt, left the impression of his peculiar personality upon the unwritten chronicles of the institution's merry making, and when on a modern day, even upon this day, it has been the alma mater of many of the south's most brilliant men, including the poet, Edgar Allan Poe.
